PROFILE

I am a competitive and versatile software engineer with a Bachelor's degree in Computer Engineering from the University of Central Florida. My lifelong passion for computers, technology, and video games has led to my expertise in problem-solving and algorithm analysis. I have over a decade of coding experience, specializing in mobile and web full-stack applications.

SKILLS

Full-Stack Development
Spring Framework
Spring Boot
REST APIs
Java
JavaScript/TypeScript
Agile Methodologies
React
Python
jQuery
Firebase
SQL
MongoDB
React Native
Cloud Firestore
Kubernetes
Docker
Veracode
Azure

EDUCATION

University of Central Florida
2019-2022
BS in Computer Engineering

EXPERIENCE

Full Stack Developer at PwC (Contract)
2022-Present
Led a team of four developers to deliver features from start to finish within three weeks. Reduced internal 1-2 day Service Now requests into 30 second self-service actions. Consistently maintained 100% secure and vulnerability-free codebases with Veracode. Consistently maintained 94%+ unit test coverage utilizing TDD.

Full Stack Developer at SkillStorm (Full-time)
2022-2022
Managed development milestones from initial steps through final delivery. Developed functional databases, applications and servers to support websites on the back end. Reviewed code and helped colleagues deliver 100% secure and efficient applications.

Mobile Application Developer at BladeDocs (Freelance)
2023-2025
Employed full-stack development tools to produce holistically envisioned applications for mobile devices. Tracked post-deployment bug reports to recognize and resolve trends among user-reported faults and complaints. Held weekly collaboration meetings with the client to track needs and goals.
